SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

OVERVIEW

In September 1990, the 1990-91 questionnaire was mailed to the 1,298 departments offering political science in four-year colleges and universities in the United States. There were 701 valid questionnaires returned, for an overall response rate of 54 percent. Ph.D. departments responded at a rate of 83 percent; masters departments at 93 percent; undergraduate political science departments at 53 percent; and undergraduate social science and combined departments at 34 percent.

For the first time this report includes a summary weighted by size and type of institution in order to reflect the universe of political science departments in four-year and graduate institutions.

Following this, data is summarized for all respondent departments (N=701) and then for each of seven subsets for departments identified by program and size.

Ph.D. departments with 21 or more faculty ..... (N=61)
Ph.D. departments with 20 or less faculty ..... (N=43)
Masters departments with 11 or more faculty ..... (N=62)
Masters departments with 10 or less faculty ..... (N=80)
Undergraduate political science departments in public institutions ..... (N=67)
Undergraduate political science departments in private institutions ..... (N=179)
Undergraduate social science and combined departments ..... (N=189)
